

## **Warranty Information**

The warranty for your Waterfall Euro Door is 3 years from the date of installation, on all covered parts and labor. If, during that period of time, there is any trouble with the hardware, installation, or functionality of the shower enclosure, Waterfall Euro Doors will either repair or replace the problem part, at our discretion.

The warranty will be void if any harsh chemicals or products have been used to care for the shower enclosure and the hardware becomes discolored or the glass becomes etched, as determined by our warranty department. To ensure the warranty stays in effect, you must follow our cleaning instructions (attached.)

If you have any warranty issues, please contact your dealer. They will inform Waterfall Euro Doors, and a service call will be scheduled.
